What's New In Type Master For Windows 10?

A personal trainer that can be used indefinitely When sitting in front of a PC or laptop, the only way you can improve your work performance is if you learn to type faster and more efficiently, this also means using both hands, being able to write without looking t the keyboard, and trying to avoid typos as much as possible. Type Master manages to teach you how to do

both, as it starts off by giving you posture advice, and it tells you about the benefits of writing with both hands or keeping your eyes on the screen. Start training based on current experience level You then you create your personal profile to help you keep track of your progress, and can start doing the exercises. These exercises are grouped up into 4 difficulty levels: "Easy", "Medium", "Hard", and "Master text". Each individual test revolves around the same principle: a prompter appears on the screen and you have to write it as fast as possible with as few mistakes as you can. At the end, the app gives you a score in CPM (characters per minute) and your percentage accuracy. 3rd published by Waves in Main features :

- Highly optimized for PC and laptops
- Manage your personal training data in the app
- Write your files everywhere
- Thanks to the new version of the application, it's now easier to get notifications
